# Curriculum *Vitae*.

Senior Product Designer with 10+ years of experience designing digital products across global agencies, startups and product teams in Europe. Experienced in taking complex product problems from discovery and research through UX/UI, interaction design, prototyping, design systems and production handoff. Strong cross-functional experience working with product, engineering and leadership teams across enterprise, SaaS, fintech, e-commerce and consumer products.

## EXPERIENCE

**2016 – PRESENT · FREELANCE / CONTRACT**

### Senior Product Designer

Embedded within agencies, startups and product teams, leading product and UX/UI design from discovery through to delivery across 20+ engagements.

- Lead end-to-end product design across SaaS, fintech, food delivery, e-commerce and enterprise products.
- Partner closely with product, engineering and leadership teams to translate complex requirements into clear, intuitive digital experiences.
- Conduct user research, define user flows and information architecture, and develop wireframes, prototypes and high-fidelity interfaces.
- Design and evolve scalable Figma design systems to support consistency and efficient collaboration across teams.
- Facilitate design sprints, ideation and collaborative workshops to explore and validate product solutions.
- Integrate quickly into existing teams and take ownership of ambiguous design problems from discovery through to handoff.

Publicis · AKQA · MetaDesign · Wunderman Thompson · DHL · MVP Factory · Digitas Pixelpark · TrustYou · Simcon · Bettermile · AirBeamTV

**2018 – 2020 · BERLIN, GERMANY**

### Product Designer, Mobilab Solutions

Partnered closely with engineering teams to design and ship product features for DHL and Vapiano. Worked from technical constraints through to polished, production-ready interfaces. Collaborated across product and engineering to translate complex requirements into usable digital experiences.

**2015 – 2017 · BERLIN, GERMANY**

### UX Designer, Techstars Startups

Provided end-to-end UX support across a portfolio of early-stage startups. Developed wireframes, prototypes and interface designs to help founding teams validate and launch their first products. Worked directly with founders and multidisciplinary teams in fast-moving environments.

**2014 – 2015 · GERMANY**

### UX Designer, Foodora

Owned UX for core product flows during a period of rapid user growth. Developed wireframes, prototypes and interface designs supporting the evolution of the product.

**2014 · HAMBURG, GERMANY**

### Intern, Landor & Fitch

Contributed to visual identity and brand strategy projects.

**2013 · MUNICH, GERMANY**

### Intern, Wayra Telefónica Innovation Incubator

Supported design and innovation projects within a startup incubator environment.
